PROFESSIONAL SUMMARY

Data-driven **E-Commerce & Growth Manager** and **Software Engineer** with over 7 years of cross-functional experience driving business revenue, optimizing digital sales channels, and engineering backend systems. Demonstrated track record scaling e-commerce platforms to **\$1M USD revenue**, establishing multi-channel growth engines, and orchestrating full MarTech stacks across **Shopify, WooCommerce, Google Ads, Google Analytics, GTM, and Ahrefs SEO**. Fluent in English with working German (B1) and multi-market native fluency (French, Arabic, C2 Turkish).

PROFESSIONAL EXPERIENCE

[UrOwnStorage](#) — Software Developer & Growth Manager | 09/2026 – Present

- Platform & Funnel Architecture: Spearheaded the end-to-end technical infrastructure and user acquisition funnels for a peer-to-peer commercial storage marketplace connecting space hosts with seekers.
- E-Commerce & Tech Stack Integration: Architected custom Ruby on Rails dashboards to execute secure automated P2P transactions and subscription billing (**Stripe/ PayPal & GoCardless**).
- Mobile App Development: Designed and developed client powered by Expo React Native using FSD architecture, Zustand, TanStack and Jest for testing.
- MarTech & Conversion Optimization: Deployed Google Tag Manager (**GTM**), Google Analytics, and custom event tracking to measure channel attribution, optimize conversion funnels (CRO), and lower customer acquisition costs (CAC).
- Search Engine Optimization (SEO): Conducted competitive keyword research and backlink analysis using **Ahrefs**, optimizing listing structure and site taxonomy to capture organic search traffic.

Crunchyroll / Concentrix — IT & E-Commerce Support Specialist | 10/2024 – Present

- Application & Technical Support: Diagnosed and resolved tier-2/3 technical issues across mobile, web Mixpanel/Mux, and streaming applications, investigating API errors, account synchronization bugs, and client-side playback failures.
- Payment & Transaction Management: Processed cross-border payment investigations, recurring subscription billing disputes, localized currency errors, and complex refund

requests across regional payment gateways (Chase, Stripe, PayPal, Google Play store and Apple Pay).

- E-Commerce Support Operations: Handled customer and merchant e-commerce requests regarding digital orders, user account provisioning, and transactional pipeline troubleshooting to maintain high customer satisfaction (CSAT) scores.

Strategic Growth & Enterprise Development — Growth Manager & Software Consultant | 04/2023 – Present

- **Corporate Growth & Software Development:** Managed company growth initiatives and led end-to-end software development for **TOMS** of [E-guide Solutions](#) and [Emotions Travel Corp.](#), implementing tailored digital architectures and customer booking systems to expand market reach.
- **Brand Strategy & Event Promotion (ChambersForSport):** Spearheaded the development of the [ChambersForSport](#) brand in collaboration with world-class sprinter Dwain Chambers across multiple sports software and marketing projects.
- **Ticketing & Campaign Management:** Directed promotional strategies, digital sales funnels, and marketing campaigns to **promote ticket sales, athletic camps**, and sports events.

[NxtPhs](#) | [DCPA](#) — Full-Stack Developer | 01/2025 – 04/2026

- **Full-Stack Development:** Engineered scalable software solutions for sports marketing, event management, and athlete performance tracking using **Dockerized Ruby on Rails** and **Laravel** backends paired with **Next.js frontends**.
- **Digital Marketing Platform Support:** Built web tools and landing page architectures that streamlined event promotion, athlete onboarding, and event registration pipelines.

[Moddule](#) — Backend Developer | 04/2024 – 11/2024

- **System Integration & Onboarding Automation:** Reduced partner deployment and integration timelines from 30 days to 10 days by designing custom API parsers and a no-code onboarding workflow.
- **Infrastructure Modernization:** Migrated monolithic Sidekiq services to a distributed, event-driven architecture using Apache Kafka and Kubernetes.

[SmartUpNetwork](#) — Lead Developer / Ruby on Rails Developer | 11/2021 – 03/2024

- **Lead Developer (12/2022 – 03/2024):** Led an Agile engineering team of 3 developers; dockerized application infrastructure, built CI/CD pipelines, and refactored core REST APIs to improve reliability across multi-environment deployments.
- **Ruby on Rails Developer (11/2021 – 12/2022):** Engineered client-facing REST APIs and managed third-party integrations; instituted automated testing practices (TDD) using RSpec, VCR, and RuboCop.

Monocloth — E-Commerce & Operations Manager | 08/2017 – 11/2021

- **Revenue Scaling & P&L Leadership:** Directed multi-department e-commerce operations across marketing, photography, and fulfillment, scaling company revenue to \$1M USD in 2019 through aggressive B2B portfolio expansion and D2C optimization.

- Platform Management (Shopify & WooCommerce): Oversee store operations across Shopify and WooCommerce platforms, managing multi-currency store setups, product catalog feeds, inventory synchronization, and automated checkout pipelines.
 - Performance Marketing & Paid Search: Managed end-to-end Google Ads campaigns (Search, Shopping, Performance Max) and Meta ad funnels, tracking ROI/ROAS using Google Analytics and GTM server-side tag deployment.
 - Organic Search Growth (SEO): Executed technical and content SEO strategies utilizing Ahrefs, optimizing product metadata, page speed, site architecture, and content funnels to rank for high-intent e-commerce keywords.
 - Logistics & B2B Operations: Streamlined warehouse management, international shipping logistics, and cross-border B2B account onboarding to accelerate order fulfillment times and client retention.
-
